

Ryan Wilson

AI Engineer & Systems Builder

London, ON (226) 450-1233 ryanwilson2005@gmail.com linkedin.com/in/ryan-e-wilson

PROFILE

I build production AI systems. Over the past two years I've designed and deployed end-to-end automation pipelines using Claude, n8n, PostgreSQL, and MCP (Model Context Protocol) on self-hosted infrastructure. My path into engineering started with IT support and manual debugging before AI tools existed, which means I know what correct output looks like and can direct AI with precision. Currently focused on AI agent systems, data pipelines, and production workflow automation.

TECHNICAL SKILLS

AI & LLM	Claude API, MCP, OpenAI API, prompt engineering, AI agents, RAG	Automation	n8n, Apify, Resend, webhooks, scheduled pipelines
Data	PostgreSQL, Neon, SQL, schema design, ETL, deduplication	Full Stack	Next.js, React, Node.js, Python, Flask, Tailwind
Infrastructure	Linux, Docker, SSH, Hetzner VPS, GitHub Actions	IT & Network	Active Directory, TCP/IP, DNS, DHCP, VPN, M365

EXPERIENCE

AI Systems Engineer | Independent 2023 – Present

- Designed and deployed an AI-powered job discovery pipeline: nightly Apify scraping, PostgreSQL deduplication, Claude-based scoring with structured reasoning, automated email delivery, and a live Flask dashboard. Processes 50+ jobs per run with categorized output.
- Built a two-pass automated proposal system on n8n: Pass 1 scores all scraped opportunities via Claude on a remote VPS, Pass 2 drafts tailored proposals for high-scoring matches. Runs twice daily with zero manual intervention.
- Architected an AI operating system with persistent memory, 18+ custom commands, and MCP server integrations for Gmail, Notion, HubSpot, Neon PostgreSQL, and Google Calendar.
- Built and maintained 15+ production n8n workflows: API integrations (Apify, Resend, Claude, HubSpot), PostgreSQL operations, error handling, and cross-service orchestration on a self-hosted Hetzner VPS.
- Developed full stack applications with Next.js, Node.js, and PostgreSQL backends. Integrated OpenAI and Claude APIs for AI-powered production features.
- Maintained a structured knowledge base with SOPs, debug logs, and 20+ documented production gotchas.

AZ Licensed Commercial Driver | London Hospital Linen Service Nov 2018 – Present

- Delivered to 50+ healthcare facilities across the region with a clean compliance and safety record.

IT Technician, Deskside Support | Nautalex Business Solutions Feb – Aug 2018

- Resolved server, network, hardware, and application issues across a multi-platform environment. Deployed and configured software and hardware for 100+ end users.

CERTIFICATIONS

Introduction to Data Analytics | IBM | 2024
Supabase From Scratch: Serverless Database Backend with JS | Udemy | 2024
Microsoft Certified Computer Technician

CompTIA A+ Certified

EDUCATION

Bachelor of Arts, Sociology | University of Western Ontario, London ON

Associate of Arts | Fanshawe College of Applied Arts and Technology, London ON
